

## — Healthcare Services

### • Pharmacy Direct Billing Service

Are you repeatedly visiting the doctor for the same prescription for a chronic illness? Save your time and energy and subscribe to MSH China's Pharmacy Direct Billing Service. We will assist you, ordering and delivering your medicine directly to you.

We will coordinate with our network pharmacies to deliver your medicine to your designated address within mainland China. The cost of your prescription will be settled according to your insurance benefits.

**Ordering & Delivering  
Your Medicine to You**

#### | Q&A

##### **What does MSH China's Pharmacy Direct Billing Service do for you?**

- We help you manage your requirements and coordinate with our network pharmacies.
- We will help you arrange direct billing for your medicine according to your insurance benefits.
- We DON'T recommend any medicine, nor prescribe them.
- We will help you to refill your prescriptions according to your doctor's instructions.

##### **Who is eligible for this service?**

MSH China's members who:

1. Have a chronic illness and are in stable condition;
2. Need to refill their medicine periodically;
3. Have a prescription from a licensed doctor in Mainland China;
4. Have not changed medication or adjusted the dosage for at least three months.

##### **Which medication can be delivered?**

For the time being, only medication of the following chronic illnesses:

- High blood pressure;
- Diabetes Mellitus;
- Hyperlipidemia (High lipid) ;
- Asthma;
- Chronic rheumatoid arthritis;
- Other chronic diseases.

##### **Which medication can NOT be delivered?**

In accordance with the National Drug Control and Legislation, "Single Track" prescription drugs are NOT deliverable.

**"Single Track" prescription drugs:** Only available with a doctor's prescription and filled in a hospital pharmacy (including antidepressants, anti-anxiety, antibiotics (short term use), insulin, sleeping pills, opioid analgesics, liquid medicines including liquids, solutions, syrups and mixtures, targeted drugs, and other similar drugs).

**"Double Track" prescription drugs:** May be purchased outside of hospital pharmacy with a prescription.
