

Health Check-Up Package  
**999RMB**

Physical Examination Items

<b>General Examination</b>	Height, Weight, Body Mass Index, Systolic Blood Pressure, Diastolic Blood Pressure
<b>Internal Medicine</b>	Medical history, Family history, Heart rhythm, Heart rate, Heart sounds, Lung auscultation, Liver palpation, Spleen palpation, Kidney percussion, Neurological reflexes, etc.
<b>Surgery</b>	Superficial lymph nodes, Thyroid, Breast, Spine, Limbs, External genitalia, etc.
<b>Otolaryngology</b>	External auditory canal, Eardrum, Nasal cavity, Nasal septum, Tonsils, Pharynx
<b>Ophthalmology</b>	Visual acuity, External eye, Eyelids, etc.
<b>Gynecology</b>	1. Routine examination 2. Routine leucorrhea examination 3. Cervical smear
<b>Blood routine</b>	Complete blood cell count + five-part differential
<b>Urinalysis</b>	Urine analysis
<b>Three renal function tests</b>	Blood urea nitrogen Creatinine Uric acid
<b>12 liver function tests</b>	Total protein (TP), Albumin (A/B), Globulin, Total Bilirubin (TBil), Direct Bilirubin (DBil), Indirect Bilirubin, Aspartate aminotransferase, Alanine aminotransferase, Gamma-GT, Alkaline phosphatase, Lactate dehydrogenase
<b>Blood sugar</b>	Fasting blood glucose
<b>Blood lipid</b>	Glycated hemoglobin Serum total cholesterol determination (enzymatic colorimetry) Serum triglyceride determination (colorimetry) Serum high-density lipoprotein cholesterol determination (enzymatic colorimetry) Serum low-density lipoprotein cholesterol determination (enzymatic colorimetry)
<b>Tumor screening</b>	4 male tumor screening items (AFP/CEA/TPSA/CA19-9) 2 female tumor screening items (AFP/CEA)
<b>Electrocardiogram</b>	Static 12-lead electrocardiogram
<b>Color Doppler ultrasound</b>	Liver, Gallbladder, Spleen, Pancreas, Both Kidneys, Ureters, Bladder Uterus and appendages Breast color Doppler ultrasound Thyroid Liver, Gallbladder, Spleen, Pancreas, Both Kidneys, Ureters, Bladder, Prostate
<b>Digital Radiography</b>	Chest anteroposterior view (no film)
<b>Pulmonary function</b>	Pulmonary function test
<b>Bone density</b>	Ultrasound bone density
<b>C14</b>	Helicobacter pylori detection

**Breakfast**      **Consumables**      **Electronic report**

**Report summary, Venipuncture, Health consultation, Establishment of health records**

**Paper medical examination report**

Telephone:  
028 6666 1124

Address:  
Jingling Road No. 1, Chengdu Tianfu  
International Biological City, Shuangliu  
District

Health Check-Up Package  
1588RMB

Physical Examination Items

<b>General Examination</b>	Height, Weight, Body Mass Index, Systolic Blood Pressure, Diastolic Blood Pressure
<b>Internal Medicine</b>	Medical history, Eyes, Ears, Heart rhythm, Heart rate, Heart sounds, Lung auscultation, Liver palpation, Spleen palpation, Kidney percussion, Neurological reflexes, etc.
<b>Surgery</b>	Superficial lymph nodes, Thyroid, Breast, Spine, Limbs, External genitalia, etc.
<b>Otolaryngology</b>	External auditory canal, Eustachian, Nasal cavity, Nasal septum, Tonsils, Pharynx
<b>Stomatology</b>	Stomatology
<b>Ophthalmology</b>	Visual acuity, External eye, Eyelids, etc.
<b>Gynecology</b>	Fundus 1. Routine examination 2. Routine leucorrhea examination 3. HPV (16, 18) test 4. TCT test
<b>Blood routine</b>	Complete blood cell count + five-part differential
<b>Urinalysis</b>	Urine analysis
<b>Renal function test</b>	Urea determination Creatinine determination Serum uric acid determination
<b>Liver function test</b>	Total protein (TP), Albumin (ALB), Globulin, Total bilirubin (TBil), Direct bilirubin (DBil), Indirect bilirubin, Aspartate aminotransferase (AST), Alanine aminotransferase (ALT), Alkaline phosphatase, Lactate dehydrogenase
<b>Thyroid function test</b>	Serum thyroid-stimulating hormone determination Serum free thyroxine (FT4) determination Serum free triiodothyronine (FT3) determination
<b>Blood sugar</b>	Fasting blood glucose
<b>Blood lipid</b>	Cholesterol, triglyceride Serum triglyceride determination Serum high-density lipoprotein cholesterol determination Serum low-density lipoprotein cholesterol determination Serum total cholesterol determination
<b>Homocysteine</b>	Homocysteine determination
<b>Tumor markers (Male)</b>	Free prostate-specific antigen determination (fPSA) Total prostate-specific antigen determination (tPSA) Alpha-fetoprotein determination (AFP) Carcinoembryonic antigen determination (CEA) Neuron-specific enolase determination (NSE) Carbohydrate antigen determination (CA19-9)
<b>Tumor markers (Female)</b>	Carcino antigen 12-5 (CA12-5) Neuron-specific enolase determination (NSE) Alpha-fetoprotein qualitative test (AFP) Carcinoembryonic antigen qualitative test (CEA)
<b>Electrocardiogram</b>	Static 12-lead electrocardiogram
<b>Color Doppler ultrasound</b>	Liver, Gallbladder, Spleen, Pancreas, Bili kidneys, Uterus, Bladder Uterus and appendages Liver, Gallbladder, Spleen, Pancreas, kidneys, Uterus, Bladder, Prostate Breast and axillary lymph nodes Thyroid and cervical lymph nodes
<b>CT</b>	CT plain scan of the chest
<b>CIH</b>	Helicobacter pylori detection
<b>Pulmonary function</b>	Pulmonary function test
<b>Bone density</b>	Ultrasound bone density
<b>Body composition</b>	Body composition analysis
<b>Arteriosclerosis</b>	Arteriosclerosis test

Breakfast Consumables Electronic report

Report summary, Venipuncture, Health consultation, Establishment of health records

Paper medical examination report

Telephone:

District

Health Check-Up Package  
2999RMB

#### Physical Examination Items

<b>General Examination</b>	Height, Weight, Body Mass Index, Systolic Blood Pressure, Diastolic Blood Pressure
<b>Internal Medicine</b>	Medical history, Family history, Heart Auscultation, Lung auscultation, Abdominal palpation, Liver palpation, Spleen reflexes, etc.
<b>Surgery</b>	Superficial lymph nodes, Thyroid, Breast, Spine, Limbs, External genitalia, etc.
<b>Otolaryngology</b>	External auditory canal, Eardrum, Naso-pharynx
<b>Stomatology</b>	Stomatology
<b>Ophthalmology</b>	Visual acuity, External eye, Eyelids, etc.
<b>Gynecology</b>	Fundus BVI Lamp 1. Routine examination 2. Vaginal discharge examination 3. HPV (37 types) test 4. TCT test
<b>Blood routine</b>	Blood routine
<b>High-sensitivity C-reactive protein</b>	High-sensitivity C-reactive protein test
<b>Liver function test</b>	Total protein (TP), Albumin (ALB), Globulin, Total bilirubin (TBIL), Direct bilirubin (DBIL), Indirect bilirubin, Alanine aminotransferase, Aspartate aminotransferase, Gamma-GT, Lactate dehydrogenase
<b>Blood sugar</b>	Fasting blood glucose
<b>Complete blood lipid test</b>	Glycated hemoglobin Triglycerides, Total cholesterol, High-density lipoprotein cholesterol, Low-density lipoprotein cholesterol, Apolipoprotein A1, Apolipoprotein B
<b>Gastric function test</b>	Pepsinogen (I, II) test Gastrin 17 (G-17) determination
<b>Thyroid function test</b>	Free Triiodothyronine, Free Thyroxine, Thyroid-stimulating hormone, Thyroid hormone, Thyroxine
<b>Immunoglobulin quantification</b>	Quantification of Immunoglobulin G(A), IgG, IgM, Complement C3, C4
<b>Total 25-hydroxyvitamin D</b>	Total 25-hydroxyvitamin D test
<b>Tumor markers (Male)</b>	Prostate-specific antigen (T, PSA) Prostate-specific antigen (F, PSA) Alpha-fetoprotein qualitative test (AFP) Carcinoembryonic antigen qualitative test (CEA) Neuron-specific enolase determination (NSE) Cancer antigen 19-9 (CA19-9)
<b>Tumor markers (Female)</b>	Cancer antigen 12-5 (CA12-5) Cancer antigen 15-3 (CA15-3) Alpha-fetoprotein qualitative test (AFP) Carcinoembryonic antigen qualitative test (CEA) Neuron-specific enolase determination (NSE) Cancer antigen 19-9 (CA19-9)
<b>Urinalysis</b>	Urinalysis
<b>Electrocardiogram</b>	12-lead electrocardiogram
<b>Color Doppler ultrasound</b>	Ultrasound: Gallbladder, Spleen, Pancreas, Both Kidneys, Uterus, Bladder Color Doppler ultrasound: Carotid, Both Kidneys, Uterus, Bladder, Prostate, Appendages The examination of the Uterus and Appendages The examination of the Uterus and Appendages (transvaginal ultrasound) Thyroid color Doppler ultrasound Color Doppler ultrasound of the neck vessels Breast
<b>CT</b>	CT plain scan of the chest
<b>Bone density</b>	Dual energy X-ray absorptiometry, bone density test
<b>Arteriosclerosis</b>	Test for arteriosclerosis and assessment of its severity
<b>Pulmonary function</b>	Pulmonary function test
<b>CI-M</b>	Helicobacter pylori breath test
<b>Body composition</b>	Body composition analysis
<b>Early cancer screening</b>	Colorectal cancer methylation test (Septin9 gene methylation test)

**Breastfast** **Consumables** **Electronic report**  
Report accuracy, Venipuncture, Health consultation, Establishment of health records
